

Analytics ROADMAP for success

In the beginning...

Sciens was engaged to investigate, assess and deliver a framework / roadmap as a tactical solution that would provide business continuity for Credit Controls and explore alternative strategic solutions that were compliant with IT standards.

Why Choose us?

- ✓ Extensive experience
- ✓ Business understanding
- ✓ Ability to execute on time

In the end...

Sciens advisory designed a roadmap and lead projects on data architecture, application architecture, security architecture and self service reporting architecture.

DESIGN

Long-term analytics

Sciens have reviewed and designed a long-term analytics roadmap to uplift the organisations analytics capabilities.

DELIVER

Business insights

Sciens ead numerous and simultaneous data science projects across data, security and reporting.

DRIVE

Clear roadmap

Sciens advisory services are agile and responsive resulting in on-time and on-budget projects continually.
